

Case Study: Bolton Community College

BOLTON COMMUNITY COLLEGE – BLOCK A

Reynaers Assist In New Campus Development

Bolton Community College and Sixth Form Centre's £67m new town centre campus is one of the largest planned investments in further education in the North West. It has taken two years of joint planning between the Colleges and Bolton Council, in conjunction with the Bolton 14-19 Strategic Partnership.

With all that time and considerable investment it is essential that the new hi-tech, 200,000 sq ft site, with top of the range facilities meets expectations. It was therefore no surprise that Reynaers profiles were specified throughout the new development.

Understanding the principle requirements and ensuring that the building meets its scheduled opening for September 2010 term have been key factors in the choice of Reynaers as reliable and efficient supplier.

Project Information:

Architect:
Taylor Young Architects

Main Contractor:
BAM Construction

Fabricator:
Baris

Location: Bolton

Reynaers Systems:
CW50 Curtain Walling
Eco 50 Doors
Vision 50 Doors
